

GUERNSEY-MUSKINGUM ELECTRIC COOPERATIVE CURRENTLY SPEAKING

MESSAGE FROM THE GENERAL MANAGER

Fall is nearly upon us. It is hard to believe that summer is almost over. Most local schools are now back in session and colleges have resumed classes or are preparing to open their doors soon. I can look back in time and remember vividly when both of my daughters started school. I am not one who cries often, but I must admit that seeing my babies head off to elementary school brought me to tears. I didn't let them see me wiping my eyes, but I was scared to death. As parents, our job involves providing protection, encouragement, guidance, and unconditional love to our children. We are their first teachers and spiritual leaders and we hopefully set the example that we want each of them to follow. But we lose control when we open the door and they walk out into the real world ... and that loss of control is a very scary thing. Now, other folks will have an influence in their lives and share in the responsibility of raising our kids. Some of these folks are complete strangers to us, so we must work to build a relationship with them and let them know we are in this together.

That same fear overcame me again when each of my girls flew the nest and embarked on their next journey to OSU. Now, I really felt like I had lost control ... and yes, there were more tears. My children had become young adults and they would be making more decisions on their own

and relying less on their mother and me. They would need to form their own opinions and judge the advice of others, without oversight from mom and dad. But they will still rely on us as parents to continue to give them guidance and above all, unconditional love. We must each take our responsibilities as parents very seriously and we must be committed to the long haul, because parenthood is a lifetime obligation. As the schools open the doors and teachers prepare the classrooms, let us all do our part to work with our educators to assure that the absolute best learning environment is available. Our obligation to our kids doesn't end when they step on the yellow bus ... it simply transitions. May God grant us patience and wisdom, and may He protect the precious gifts we call our children. God bless!

Jerry Kackley
GENERAL MANAGER/CEO

Jerry

Family Fun Day!

Saturday, Oct. 6

12–3 p.m. at Deerassic Park
14250 Cadiz Rd., Cambridge

Free food:
Hot dogs
Chips
Ice cream
Water

Activities will include:

- ◆ Fishing
- ◆ Kids' games
- ◆ Soft-tip archery tag
- ◆ Inflatables
- ◆ Deer viewing
- ◆ High-voltage safety demonstration

Educational booths, including:

- ◆ Energy Wall

Adventure, learning, and family quality time — at Guernsey-Muskingum Electric Cooperative, we think all of these are important to incorporate into your life. That's why we're hosting Family Fun Day on Saturday, Oct. 6, 2018, from noon to 3 p.m. at Deerassic Park in Cambridge.

Whether you want to brush up on archery skills, learn how to make your home more energy efficient, enjoy decadent ice cream, or simply watch the grazing deer at the park, there's something for everyone.

Founded in 1996, the park has an education center on 130 acres, with a 3-acre pond, trails, and 15,000 square feet of pavilion space. The Deerassic Park Education Center also maintains an educational herd of deer for youth and families to view, while the main building houses a unique collection of mounted animals and artwork. Included in the collection are replicas of the world-record Beatty Buck, harvested by Mike Beatty, and the one-of-a-kind Megaloceros: Irish Elk replica from world-renowned taxidermist Ken Walker of the enormous creature that went extinct over 10,000 years ago.

Come out and join GMEC for a day of outdoor family fun, where you can simultaneously take away a new factoid about your co-op — and take dozens of photos of your children in action. Free food, water, and ice cream will be provided.

Please call GMEC at 800-521-9879 for more information. We hope to see you there!

ENERGY EFFICIENCY

TURN OFF THE LIGHTS!

Teaching youngsters the important lesson of energy efficiency

Electronic and mobile devices, TVs, computers, and gaming stations have become ubiquitous fixtures in our homes, particularly those with children. Consumer electronics coupled with the proliferation of smart home appliances, technology, and electric vehicles have slowly but steadily changed our homes and lifestyles.

This ever-connected world is the modern environment in which children are growing up. And with lifestyles increasingly reliant on technology and, in turn, energy consumption, teaching youngsters to save energy is an important life lesson.

The why

Before parents can teach their children how to save energy, they must first answer the question, *What's in it for me?* As most parents can attest, convincing kids to care about energy efficiency is a hard sell. Parents need to explain why it's important to save energy and how it benefits the child — otherwise the child will not understand the need to change his or her habits and will be less motivated to do so. In the simplest terms, less money spent on an electric bill can mean more money used for fun activities (that's something children can relate to!).

Less tangible, but just as important: Using less energy means running your home more efficiently, conserving natural resources, and helping the environment.

Learning by doing

Because saving energy is an abstract concept for children, be specific about energy efficiency actions and set an example. We know that children learn by

observing. Even if they don't say anything, children are processing your actions. When you turn off the lights when leaving a room or unplug the phone charger once the device is fully charged, they will notice. Learning about energy efficiency doesn't have to be a boring lecture. Make it fun for greater impact.

For younger kids, turn energy efficiency into a treasure hunt game to locate all the things in your home that use electricity. Depending on the age of the children, challenge them to count and group the items into categories: electronics, appliances, lights, etc. If age appropriate, have them create a list. Ask which gadgets and appliances could be turned off or unplugged to save power every day.

For older children, show them how to program the smart thermostat and appliances. Shop with them for LED lights and discuss Energy Star-rated appliances. Show them the electric bill so they can see the costs, energy use, and how their actions impact the bill.

Kids of all ages can learn a few simple energy-saving habits that can last a lifetime:

- Turn off lights, devices, computers and video consoles when not in use.
- Open blinds and curtains during winter days to let warm sunlight in, and close them during summer days to keep your home cooler.
- If your children are old enough to wash their own clothes or run the dishwasher, teach them to do so only with a full load and during off-peak hours.

Rewards

Offer rewards for agreed-upon milestones. Rewards provide positive reinforcement on energy-saving actions. The idea is to create a *habit* of being energy efficient. For parents, this could mean less nagging about turning off the lights!

Teaching your children about saving energy is not only a creative way to spend time with them; it also helps your home to be more energy efficient and can instill good habits that will benefit your child long into adulthood.

Cardinal Plant Tour

If you are interested in touring a power plant that generates electricity, please call Guernsey-Muskingum's member services department today at 1-800-521-9879.

You, a cooperative member, are one of the owners of the Cardinal Generating Station in Brilliant, OH, and this will be a chance to see it in operation.

The arrangements are being made for Wednesday, Sept. 12. The trip will include the bus ride, the plant tour, and lunch.

Seats will be reserved for Guernsey-Muskingum members who have not taken the tour in the past. Please call, as seats are limited and will be filled on a first-call, first-served basis. To fill the bus, we will keep a waiting list for members who have attended but wish to return.

Please be aware that if there would be a high or orange security warning issued by the U.S. Department of Homeland Security, the tour may be canceled. If you have any questions, please call your cooperative. We will be monitoring the situation.

Please be our guests! But don't delay!

OFFICIAL NOTICE

Certification of Active Duty Deployment

Guernsey-Muskingum Electric Cooperative, Inc.

The cooperative will not disconnect electric service to the residential premises of any residential member who is deployed on active duty for nonpayment for electricity provided to the residential premises.

Upon return of the residential member from active duty, the cooperative will offer the residential member a period equal to at least the period of deployment on active duty to pay any arrearages incurred during the period of deployment. If the period the cooperative offers the residential member for repayment presents a hardship, the member may request a longer period to repay the arrearages. No late payment fees or interest will be charged to the residential member during the period of deployment or the repayment period.

Active duty means active duty pursuant to an executive order of the president of the United States, an act of the Congress of the United States, or section 5919.29 or 5923.21 of the Ohio Revised Code.

The residential member must resume the timely payment of all charges for electric service provided by the cooperative after the return from active duty deployment.

In order to avoid disconnection of electric service for nonpayment for electric service during a period of active duty deployment, a completed Certification of Active Duty Deployment form must be submitted to the cooperative. Certification of Active Duty Deployment forms are available from the cooperative upon request.

**GUERNSEY
COUNTY
FAIR**

Come out to the Guernsey County Fair and visit the Guernsey-Muskingum booth under the grandstand.

**Monday, Sept. 10
to Sunday, Sept. 16**
at County Fairgrounds

G-M staff will be on hand to speak with you about the various programs and services provided by your cooperative.

Official notice of medical certification

Medical certification forms are available upon request at the Guernsey-Muskingum Electric Cooperative, Inc. office for those persons who must certify that disconnection of electric service would make the operation of necessary medical equipment impossible or impracticable, or that such discontinuation of electric service would otherwise be dangerous to the health and welfare of persons residing in the household.

In all cases where discontinuation of service would be especially dangerous to life and welfare of the occupants within a household, the consumer should contact the cooperative and request a Medical Certification form. This form must then be completed and certified by a licensed physician or local board of health and filed with the cooperative.

Would you please help your cooperative find former members?

Guernsey-Muskingum Electric would like your help in locating the following former members (or their heirs) who received service from the cooperative in prior years.

Capital credit refund checks were mailed to former members listed in this *Ohio Cooperative Living* issue. These checks have not yet cleared the bank or have been returned to Guernsey-Muskingum as undeliverable.

If you have information on any of the names in the Capital Credit Refund Listing, please call the cooperative office at either of the numbers listed below and provide the information to the member accounting department.

The cooperative is aware that many of the former members listed are deceased. However, we are looking for surviving family members who are eligible to receive the capital credit check. Thank you for your help in locating our former members.

Tip of the Month

Now is a great time to make sure your system is ready for winter. Try it out on a cool day before it is actually needed. Change the filter and have it serviced if necessary. HVAC specialists are much more available before it gets really cold, and some may even give an off-season discount while they are not really busy.

LABOR DAY

Our office will be closed on Sept. 3 in observance of Labor Day.

GUERNSEY-MUSKINGUM ELECTRIC COOPERATIVE CURRENTLY SPEAKING

9th ANNUAL FARM SCIENCE REVIEW BUS TRIP

Wednesday, Sept. 19

Yes, I/we would like to join our co-op and ride in a Muskingum Coach Tour Bus to the Farm Science Review at London.

Seats will remain at \$25 each this year.

Name _____

Phone _____

Address _____

Enclosed is a check for \$_____. Please make check payable to GMEC.

DON'T WORRY ABOUT THE TRAFFIC — LEAVE THE DRIVING TO US!

Your ticket covers the bus trip to and from the Review, and your ticket to the Farm Science Review.

Bus departs Cambridge at 6:00 a.m. and Zanesville at 6:30 a.m.

I WILL BOARD THE BUS AT _____ CAMBRIDGE _____ ZANESVILLE

Mail or return to:

Guernsey-Muskingum Electric Cooperative, Inc. • 17 S. Liberty St., New Concord, OH 43762

For more information, call member services at 1-800-521-9879.

Is your name and account number here?

If it is, call the cooperative's office and receive a **FREE** home change-out to compact fluorescent lightbulbs (limit 6 bulbs). Thanks for reading the local pages of *Ohio Cooperative Living*.
